Dear Mr. Saumil Shah,

Nanosoft Technologies appreciates Philips Pharmaceuticals Uganda Limited's continued support and investment to us. We wish to ensure that your temperature monitoring system operates reliably with the greatest uptime possible.

Our records indicate that the temperature monitoring system's preventive maintenance schedule at your facility is due for the annual preventive maintenance service run as of 08th April 2019.

We are therefore providing a proforma invoice for our Customer Support services for the temperature monitoring system where the preventive maintenance warranty will soon expire; we request that you arrange for the payment of the Preventive maintenance fees early enough to enable a timely delivery of the preventive maintenance services for your temperature monitoring system.

Sincerely,

Mathew Ssemiti
